Sahil	Finish current Book and Start a new one before month end Book to Finish: Meditations	Workshop to Content Team around Meditations	Make writing and research templates for Instagram based on buckets that have worked for us and the competitors	Make 5 writing templates with a list of suggested topics		
Shuchita	Read 10 pages of the current book I am reading- Going Solo By Roald Dahl	Will post a small write up on the internal group everyday on what I have read	Work out the step by step system for Topicflow for Hindi IP This can act a framework to topicflow for new channels	Link of the doc for this process setup		
Nishita	Completely heal my thumb with medication & quit my skin picking habit	Photograph before vs After	Consolidate new onboarding kit for new hires which includes all templates & updated script templates with additional steps of audit & research templates (Statistical concept, mental model, expert video) Impact: Faster & more contextual onboarding	Link to Onboarding kit		
August						
Sahil	Run 2K Daily	3 Lakhs steps by End of the Month. Google Fit Tracker	Build a Research Toolkit that comprises of the below 3 factors : 1. Help to update the team on recent publications or depth pieces that can be used for LFs 2. Help find topics by analysing comments across Zero1 and other competitor channels. 3. Maintain a list of frameworks Economic and Financial theories (both evergreen or topical) that can be used in LFs	Delivering a database and a systemic flow of how this would be updated and maintained.		
Shuchita	Clear one certification from NISM Lose atleast 2 Kgs of weight	Will share the certificate once done :) Scale Photo	Will learn how to write YT posts, and make carousels for them also. Target is to make posts 15% of the total channel views of OG in the 1-2 month period, currently it is 10% for 3 month period. Also find the right mix of short and long posts, because short posts get 2.7x reach but audience appreciates us for long insightful posts also. Will first start with OG and then expand to Hindi IP & also Tharun IP (if needed)	Will share weekly retro of posts		
Nishita	Gym atleast 3 times each week. Lose atleast 3 Kgs	Cult App Streak & Scale Photo	Improve Zero1 research benchmarks by improving personal consumption. Will be sharing 1 read every weekday in the content group to either make research better or faster Impact: better research of source content	Slack Channel: Content Zero1

Team Member	Personal Goal	Business Goal	Manager's Feedback
AMANDEEP	1. Wake Up Early Objective: • Build a disciplined and productive daily routine. How to Measure: • Track daily consistency. --- 2. Limit Social Media to 2 Hours Per Day Objective: • Reduce distractions and improve focus. How to Measure: • Track daily usage using Digital Wellbeing or Screen Time.	1. Build an AI-Assisted Workflow for Generating Original Music Ideas from Reference Tracks Objective: • Create a reliable AI workflow using Claude to generate original music ideas, MIDI, and editable musical elements inspired by reference tracks (not direct copies). Before Testing: • Update and organize the instrument library. • Build and refine the prompting workflow. • Teach Claude the workflow and the type of output required. • Prepare suitable reference tracks for testing. • Optimize the workflow to generate usable MIDI, SF2-based musical ideas, and stems wherever possible. How to Measure: • Successfully generate at least 3 original music ideas/tracks inspired by reference tracks.	
NAVEEN	I'll start practicing the piano consistently so I can think more musically and understand music better. I'll start reading books.	I'll learn DaVinci Resolve editing tools and improve my editing skills so I can achieve my August goals. I'll mainly focus on the Edit timeline and Fusion.	
ASHUTOSH	Improve my sleep cycle by maintaining a consistent sleep schedule. Develop a sustainable fitness routine. I'll do a Digital clean up for my personal 1 TB of unmanaged data.	Learn Python fundamentals, enough to build a strong foundation for audio workflow automation for automating repetitive post-production tasks such as file validation, batch processing, and audio quality checks. This foundation will also support the development of a larger internal workflow automation tool planned for August.	
AMARDEEP	Wake Up Early Objective: • Build a disciplined and productive daily routine. How to Measure: • Track daily consistency. Limit Social Media to 2 Hours Per Day Objective: • Reduce distractions and improve focus. How to Measure: • Track daily usage using Digital Wellbeing or Screen Time.	Plan and execute a broadcast message campaign for all users	
RAHUL	I'll write and release one of my own songs	I'll edit and animate 1 or 2 YT Shorts	
BHAVYA	Finish Scripting for my short film. (A love letter to Messi) Attend at least 1 day of protest and document (PEACEFULLY)	Finalize a VO artist for Hindi IP so dependency is 100% removed from PS
